

2023-24 ELA and Math Placement for Students in Grades 1-7

Each year we use the data listed on the [Placement Brochure](#) to place students in the appropriate level English Language Arts (ELA) and Math classes. Parents of students who are placed in small group classes will receive an email by the end of June to inform them of helpful review work during the summer.

Letters indicating student placement into all other classes will be sent to parents in mid-August. We will assess and place first-grade students into the advanced plus and small group ELA and Math classes during the first month of the new school year. New students will be assessed and placed into the appropriate level ELA and Math classes during the first month of the school year.

Please be sure to communicate to your children that it is important for them to remain engaged and to continue to do their best through the end of this school year. Placements are fluid, and students are considered for movement between levels during the school year based on performance.
